Q3 Engineering Report - Northwind Labs

Platform reliability: uptime was 99.95 percent in Q3.
There were two Sev-1 incidents, both in the payments service.
Mean time to recovery dropped from 47 to 22 minutes.

Hiring: the team grew from 41 to 48 engineers.
Attrition was 3.1 percent for the quarter.
Two staff engineer positions remain open.

Q4 priorities: migrate search to pgvector,
reduce cloud spend by 12 percent,
and ship the mobile offline mode by December 15.
